**DETAILED ACTION**  
***Allowable Subject Matter***

Claims 21-42 are allowed.

The following is an examiner's statement of reasons for allowance:

Determining vision correcting data from at least one signal indicating the modified optical characteristics of the adaptive optical system as claimed is not taught nor suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Ross et al '413 teach modifying a projected image using an adaptive optical device 168. A movable mirror 172 is positioned to determine a corrective prescription. There lacks a teaching or suggestion to determine vision correction based on data from adaptive device 168.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to George Manuel whose telephone number is (571) 272-4952.
